SOMETHING THAT WILL DO YOU GOOD.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden (S. C.) Messenger. For sale by Craig & Hocker, druggists.

The deceased was a resident of this vicinity during the greater part of her husband's life. The burial was attended by a large concourse of friends and relatives.

Now that the matter is once again arousing public interest, it seems that a system of water works will materialize at an early date. The franchise will be awarded to the lowest bidder and the city council will see to it that the contractor is so bound that it will be impossible to delay the work. This public construction will be begun in the early spring and every detail will be rigidly supervised by the building committee. It is believed that Lancaster will have a first-class system of water works before 1903.

J. Hansbury West died at his home in this county Saturday after an illness of less than a week of pneumonia. While Mr. West had been in feeble health for some time, as he had reached his 87th year, he was still able to be a constant attendant at church. He had been an earnest member of the Christian church and the funeral was conducted at that place Monday morning by Elder Moore. He leaves a widow and five grown children to mourn his death. The deceased was a native of Madison, came to this county some time in the 50s and for several years was a prominent druggist and business man. He married the widow of Allen Hiatt and the latter part of his life was a successful farmer.

THE INTERIOR JOURNAL

E. C. WALTON.

W. P. WALTON.

Is a Candidate for Railroad Commissioner for the 2d District, subject to the will of the democracy.

HEARTILY in love with his adopted home, the editor of the Lexington Democrat says: There is nothing so sure in the future as that Lexington will be selected as the capital of the State, if the people are given a chance to vote on the question. It is the natural location and possesses every advantage necessary for such important buildings. Its railroad facilities are not even surpassed by Louisville and when it comes to taking into consideration the fairest country upon which the sun ever shone the Falls City is not in it. The next geographies will name Lexington as the capital of the Commonwealth of Kentucky and don't you let it slip your memory.

SUNDAY'S Cincinnati Enquirer contained a half page article on "The Luck of the Beckhams" with pictures of the governor representing him in nearly all of the seven stages. They are all like him from the boy in skirts to the matured man of 1901. His career has indeed been a wonderful one since he started in public life as a page in the Legislature, 20 years ago. Since which time he has been representative, speaker of the House, lieutenant governor and governor of the State. Following his steady march, the prediction that he will be United States Senator and possibly president seems not improbable of fulfillment.

FOUR men, two white and two colored, will be hanged at Asheville, N. C., on the 26th for the felonious taking and carrying away of one pistol, of the value of \$2, and a like sum in money, the taking and carrying away being done at the point of pistols and from a dwelling burglarized at midnight, to the accompaniment of threats of death if outcry was made by any one of the inmates who had been awakened from sleep by the quartet. These will be the first executions under the recently enacted law making burglary of dwellings a capital offense.

A MT. VERNON, N. Y., man refused to pay an over-charge of \$1.65 on his gas bill and the company cut him off. Now the courts have compelled the company to pay the man \$1,300. Looks like the courts of that State endorse over-charges and are putting a premium on them.

AUGUST CLIFF, of Chicago, after driving from Illinois to Colorado in a buggy to escape his wife's wrath, asks a divorce, saying she put toads in his bed and treated him cruelly. Poor fellow! He deserves a divorce and lots of alimony.

BOOKER T. WASHINGTON has been selected by the faculty of the University of Nebraska as commencement day orator. Members of the senior class oppose the selection of a Negro and are very sensibly making a kick.

THE Mt. Vernon Colonel puts marriages and deaths under the same heading. Does its editor, who is a Benedict, think they are about the same thing or that one is as bad as the other?

SEATS in the Stock Exchange in New York are going for a song these dull days. One sold for the pitiful sum of \$70,000 last week. Country editors could buy one at that price.

THAT republican papers recognize in the Louisville Post a friend in deed and in truth is shown by a number of them carrying as many as two display "ads" of that radical publication.

W. B. HUDSON, of the Kentucky Colonel, Mt. Vernon, has leased his paper to William T. Davis for a year and he will spend the time with his aged mother at Barbourville.

THE erstwhile champion pugilist, John L. Sullivan, is evidently preparing for a big drunk. He announces that he will retire from the stage and lead a quiet life.

CHICAGO firemen heroically rescued six apparently asphyxiated persons from a burning hospital, only to find that the bodies were cadavers for dissection.

EDITOR CUNNINGHAM, of the Danville Courier, had a narrow escape in a runaway and his brethren of the press are glad he escaped without serious injury.

Mr. Clay, of Georgia, pointed out in the Senate that for the past month over 20 extra clerks and messengers had been employed by committees at a salary of \$1,400 a year each, nine of them, it was understood, being for committees that had not met for years.

Friends of the local option bill consented to its recommendation with the understanding that it is to be reported to the Kentucky Senate Tuesday or Wednesday. Opponents of the bill have a faint hope of defeating it in the Senate. In the House, the sentiment is overwhelmingly in favor of it.

A discovery was made in the State Senate that a "loaded" bill had been passed—that the bill fixing the status of interurban electric railroads by putting them on a footing with steam railroads, contained a clause giving the interurban roads power to condemn track and power of city street railways.

The House Committee on Revenue and Taxation has completed the new revenue bill and will report it to the House today. The bill makes some radical changes and will increase the State's revenue, it is estimated, by \$250,000. An increase of 24 cents in the rate is made, making the rate 50 cents on each \$100 valuation. Of this, 22 cents will go to the general expenditure fund, 22 cents to the school fund, five cents to the sinking fund and one-half cent to the A. and M. College.

In Hayti a new species of tobacco has been produced by cross-fertilization, which grows from five to seven feet in height, bearing a leaf 25 inches long by 15 in width. Three or even four cuttings can be made from one plant between November and March.

Gov. Beckham issued pardons before trial for Edward and Tolbert Garrard, Daniel Woods and John Lucas, under indictment in Clay county for the murder of D. T. Holland. The pardons were strongly urged by Judges Dishman and Tinsley, and law-abiding citizens of the mountains on the ground that conviction was impossible, and that trials would probably bring about more trouble between the factions.

When John Bright returned to his home after church, he found a burglar in the house. He assumed the role of policeman, arrested the culprit and turned him over to Jailer Fitzgerald for safe keeping. The fellow gave a number of aliases, one of which was Glass Eater. Nothing was missed from the house and Judge Prewitt discharged him on the condition that he would leave town at once and not return for five years—Advocate.

James Turner was found in the woods near Brodhead in a chilled condition. He acknowledged that he saw the big fight at the "Quarter House," near Cumberland Gap. Officers took him to Mt. Vernon, and wired to Middleboro to know if he was wanted and the sheriff answered yes. Turner says he is a cousin to Lee Turner, on whose account the trouble arose. He claims that while the fight was in progress he was lying in some broom sedge a short distance away.

A "Queer" Preacher.

Rev. Mr. Hagamore, to whose memory is a slab in the church at Catshope, Leicestershire, England, was "a little queer." It seems that the reverend gentleman died in January, 1886, leaving all of his property, valued at \$3,600, to a railroad porter.

This queer old preacher kept one servant of each sex, whom he locked up every night. His last employment of an evening was to go the rounds of his premises, let loose the dogs and fire off his gun. He lost his life in a curious manner. Starting out to let out his servants, the dogs fawned upon him and threw him into a pond of water. The servants heard his cries, but being locked up could not render assistance, so the old man was drowned.

When the inventory of his property was taken, he was found to be the owner of 80 gowns, 100 pairs of trousers, 100 pairs of boots, 400 pairs of shoes, 80 wigs (although he had plenty of natural hair), 50 dogs, 99 wagons and carts, 30 wheelbarrows, 249 razors, 80 plows, 50 saddles and 222 pickaxes and shovels. He surely was "a little queer."

CHARLEY DRYE, the Hustonville Negro who was thought to have been killed in the fearful battle in Bell county last week, has shown up at Winchester. The number killed was six instead of nine as last reported.

THE promoters of the Hutchins Oil & Gas Co. are selling lots of stock and in a few weeks boring for oil will begin. With gushers on every side of their lease they have a right to feel good over their prospects for finding oil in paying quantities and unless all signs fail the fluid will be flowing before many moons wax and wane. Their territory being very close to the depot at Bailey's Switch no pipe line of consequence will be necessary.

OLD FIDDLERS' CONTEST AT LIBERTY.—Carter Bros., who gave a successful old fiddlers' contest at Turnersville last week, will give one at Liberty on next Monday night, 24th. There will be four cash prizes and a large number of old fiddlers have already agreed to contest for them. Read their advertisement elsewhere. Following are the entries: Larkin Hicks, Brodhead; Wm. Cooley, Alex. Martin, Armp. Dawson, Stanford; Worth McWhorter, Mt. Salem; N. O. True, Dr. W. L. Lowder, McKinney; Tack Nail, Hustonville; George and Kidd Evans, Phil; J. S. Edwards, Ed; J. T. Wheeler, Middleburg; Ansel Lanham, Hustonville; Miss Jennie Gooch, Stanford; Ziph Sims, Duncan.

AMONG those who enjoyed "Bro." Barnes' letter on Dowle are Mr. and Mrs. A. Glass, who are firm believers that the Chicagoan is Elijah the second. Mr. Glass tells us that his wife owes her present good health to Dowle's prayers. She was almost an invalid for years and doctors had pronounced her case hopeless when the "second Elijah" took her case in hand. The Glass' also believe that Mrs. C. C. Sink, of Lexington, had her sight restored by Dowle's prayers. She became blind and doctors told her there was no hope of a restoration of sight. Followers of Dowle wrote him about her and asked him to pray for her. He prayed on Friday night and Saturday morning her sight returned. Mrs. Sink is a daughter of A. C. Carman, of the Hubble section. Mr. and Mrs. Glass are members of the Dowle mission at Danville, which has 16 members, and they worship there nearly every Sabbath. Among the members is a colored man, who has professed the Dowle faith.

COAL.—I am now handling the cheaper grades of coal as well as the best coal. J. B. Higgins. Phone 44.

WANTED.—Old fiddlers to enter the contest at Danville Monday night, next. Write to Mrs. Wm. Warren, Danville, Ky.

BRACKETT.—Mrs. James Brackett, who was a daughter of Mr. Dink Farmer, died at her home yesterday of measles, which settled on her lungs. Besides a husband four little children are left to feel keenly the loss of an affectionate wife and tender mother. May the good Lord help them to bear their great trouble. The remains were laid to rest in the family burying ground near Sugar Loaf at noon yesterday.

HURT.—Dexter Ballou, son of Elder Joseph Ballou, of Stanford, employed on the Q. & C. railroad, is at the hospital here badly bruised, but not seriously hurt, from a fall from a car Wednesday last. The train was passing through a cut and Ballou was standing on a flat car, when something, believed to be a missile thrown by some one from the embankment, struck him on the head and knocked him from the car. -Somerset Journal.

ARNOLD.—Sara, the bright, 10-year-old daughter of Rev. and Mrs. W. E. Arnold, died yesterday morning after a short illness of appendicitis and will be buried in Buffalo Cemetery this afternoon after funeral services at the home on Danville Avenue, conducted by Rev. H. C. Morrison, of Louisville. She was an unusually sweet disposed child, popular with her playmates, almost worshipped by her sisters and little brother and idolized by her parents, who have much sympathy in the loss of their little darling. Never very strong, Sara did not give promise of being a robust woman, but little did her family and others think she would be taken away so early in life. He moves mysteriously though and the little light was snuffed out in its innocence. May those who weep soon realize that their loss is little Sara's eternal gain.

McAFEE.—Miss Mary McAfee, a faithful follower of the meek and lowly Nazarine, died Sunday night of cancer and was buried this morning. Rev. H. C. Morrison preached a beautiful funeral sermon at her late home, where so many of our good, christian women have gathered during Miss McAfee's illness to pray for her. Deceased was a true christian as shown by the following, which were her last words: "Tell all the people the Lord touched my body for healing on Jan. 29th. The agonizing pain left instantly. I was renewed in strength, the angry look of the disease changed to a look of withering away. The offensive odor was there no longer, but the enemy (Satan) made again a desperate stroke, attacking my bowels, which he had done many times in my life. This time I have failed to measure up in faith. It is my failure, not God's; He is faithful." The measure of God's power to work in us is ever according to our faith; 1st Peter 5, 7 & 8.

BURNSIDE.—Mrs. Mary Catherine Burnside, relict of Mr. Elijah H. Burnside, died at about 5 o'clock Sunday morning, aged 64, and was buried at Lancaster yesterday afternoon after services at her late home here by Rev. S. M. Rankin at 11 o'clock. She had been in poor health for some time, but on Wednesday evening suffered a paralytic stroke, from which she never became conscious. Her daughter, Mrs. E. P. Oweley, of Columbus, Ga., was wired and she and her husband arrived Friday afternoon and remained at the bedside until death came. Her other children are Mrs. A. G. Huffman and Miss Pearl Burnside and in their great loss they have the undivided sympathy of the community. Mrs. Burnside was a fine type of the elegant Kentucky woman and in her death Stanford loses a prominent figure. Since the death of her husband some 12 years ago she attended to her business affairs, and owning considerable real estate, it was quite a task, but the splendid judgment she displayed proved that she was fully equal to the occasion. Mrs. Burnside was a warm hearted, good woman and will be sadly missed by every man, woman and child in town who knew and profoundly respected her. The poor have lost a good friend, for she gave liberally of her means to worthy people and causes. A strict Presbyterian, she died a firm believer in that doctrine and having lived a righteous life she now reaps the reward. May the soul lie gently on the grave of this excellent, motherly woman while she enjoys the sweet sleep that knows no waking in the land that is fairer than day. Besides the daughters, an aged mother is left to mourn Mrs. Burnside's loss and in her sorrow she weeps not alone. No mother and daughter ever loved each other dearer than Mrs. Connor and the subject of this sketch. They were simply inseparable and their devotion was beautiful indeed. In short Mrs. Burnside lived for her mother and children and now that she has gone the way of all good we wonder not that her loss is keenly felt. The writer lived some months under the same roof with the deceased and knowing her virtues and her beautiful life he realizes his inability to do her justice in this notice.

The Hutchins Oil & Gas Co.
(Incorporated)
Stanford, Kentucky.

Capital Stock, \$15,000
Shares, \$10 Each

THE stock is Non-Assessable and the private property of the stockholder is not liable for the Company's debts. Sufficient capital to go to the proper depth is all that is required to find oil on this Company's holdings.

Officers & Directors:
R. P. Adams, President, Lexington.
Jas. Frye, Treas., Hustonville.
H. Helm, Secretary, Stanford.
J. L. Hutchins, General Manager, Preachersville.

Main Office, Stanford, Ky.

The Hutchins Oil & Gas Company

is incorporated under the laws of the State of Kentucky. The Capital Stock is Fifteen Thousand Dollars (\$15,000), divided into Fifteen Hundred (1,500) Shares, par value Ten Dollars each.

The Company Owns

the exclusive oil and gas rights on a tract of land containing 300 acres in Knox county, Kentucky, which is immediately upon the right of way of the Louisville & Nashville Railroad at Bailey's Switch, three miles north of Barbourville on Richland Creek. By reason of its location the Company is not dependent upon any pipe line or the expense attached thereto. For the same reason the Company will be able to get its product on the market with very little, if any, delay.

The Property Controlled

by the Company may properly be considered proven oil land because of the wells that have been put down by other companies on lands in the immediate vicinity of ours—the Mays Well, one and one-half miles south, Jarvis Well, two miles north, Jones Gusher, two and a half miles northeast, and Indian Creek Gushers, four miles southwest.

The Company Has

its first derrick almost completed and will begin drilling by February 20th. It is the intention of the Company to put as many wells on the land as the acreage will justify. The rule for well drilling is from five to ten acres. Estimating on a ten-acre basis we can drill 30 wells on this farm. For illustration, say the wells will average twenty barrels each day, making a production of 600 barrels per day; counting 300 working days in the year we have 180,000 barrels production, which, at the prevailing prices, would yield a profit of fifty cents per barrel and an annual dividend four times the capital stock of the Company. (75c per barrel is the present value on railroad.) One twenty barrel well would pay twenty per cent. on the capital stock.

It Has Been Demonstrated

thoroughly that there is an abundance of oil in Knox county. Our property is in the very heart of the proven territory and has transportation right at it. The field is attracting the attention of the best oil men. A number of wells have been put down with not a single duster.

Proceeds from the sale of all stock will be used for the purpose of developing the Company's property.

The Company's Affairs

are in the hands of a competent, honest and practical Board of Directors and its business shall be managed faithfully and its funds spent honestly and economically. For reference we refer any inquirer to the National Bank of Hustonville, where Mr. Frye lives. Bryan, Goodwin & Hunt, Lexington, for whom Mr. Adams travels. Our Secretary, H. Helm, is County Attorney for Lincoln County, and Mr. J. L. Hutchins is a well known merchant in Lincoln County and an up-right business man. Apply for stock in this Company to any of the above officers.

WE WANT YOUR TRADE FOR 1902.

As an inducement we offer a complete stock in every department at prices that will sell the goods. We have this method of thanking our customers for their generous support and will be glad to have them again for the New Year as well as many new ones and hope to make our business relations pleasant and mutually profitable.

A GOOD THING.

German Syrup is the special prescrip-
tion of Dr. A. Boschee, a celebrated Ger-
man physician, and is acknowledged to be
one of the most fortunate discoveries
in medicine. It quickly cures Coughs,
Colds and all Lung troubles of the sever-
est nature, removing as it does, the cause
of the affection and leaving the parts in a
strong and healthy condition. It is not
an experimental medicine, but has stood
the test of years, giving satisfaction in ev-
ery case, which its rapidly increasing
sales every season confirms. Two million
bottles sold annually. Boschee's German
Syrup was introduced in the United States
in 1868, and is now sold in every town
and village in the civilized world. Three
doses will relieve any ordinary cough.

WAYNESBURG.

Sadness and gloom overshadow every
home in our little town since the news
came to us of the death of Miss Cora
Gooch, who was once one of the bright-
est and sweetest little girls of our town.
She moved to Somerset when she was
about 14 years of age, and after gradu-
ating there entered a business college
in Lexington, where she made many
friends who deeply mourn the loss of a
true christian friend. She became a
member of the Baptist church in early
life and remained faithful to God to
the end. The supposed immediate
cause of her death was sarcoma, of
which she was afflicted for about three
years. In June she went to Louisville
and suffered the amputation of a limb.
She was in Williamsburg in the em-
ploy of Commonwealth's Attorney J.
M. Sharp as stenographer when she
grew suddenly ill and soon died. The
funeral took place Sunday at the Som-
erset Baptist church and was con-
ducted by her pastor, Rev. Borem, who
dwelt long upon her christian charac-
ter. The deceased leaves a father and
mother, two sisters and one brother,
and in their sorrow they weep not
alone.

Her busy hands are folded,
Her work on earth is done,
Her trials are all ended
Her Heavenly crown is won

Past her suffering, past her pain,
Cease to weep for tears are vain;
Calm the tempest of your breast,
For she who suffered is at rest.

Arago's Modesty.

Arago, the great French scientist,
was never seen with a decoration on
his breast. He valued honors slightly.
One evening Leverrier, the astronomer,
called on him on his way to dine with
a minister. He expressed a wish to
appear decorated with an order, to
which he was entitled, having received
the official notice of the honor, al-
though he had not as yet the decora-
tion itself.

"Open that drawer," said Arago,
"and take whatever you want."

In that drawer were all the crosses
and ribbons which kings and emperors
confer.

While Arago wished above every-
thing to promulgate science and to
make his researches useful, he did not
attempt to identify himself forever
with his discoveries by writing books.
He had no time for writing, but con-
tented himself with noting the results
of his work in the record of the bureau
of longitude or announcing it verbally
to the academy.

One Cause of Blackheads.

Blackheads are often largely due to
poorness of blood. For this reason
anemic people are generally troubled
with them, and in their case the gen-
eral health must be improved before a
cure can be effected. Constipation also
tends to produce pimples and black-
heads. People who suffer from these
should eat largely of fruit, both ripe
and stewed, and avoid starchy food,
such as potatoes and bread. This sim-
ple emollient will soften the skin with-
out making it greasy and is excellent
for wiping over one's face after a bi-
cycle ride or, if used warm, after be-
ing out in a keen wind. Take three
parts milk and one part cucumber
juice, heat almost to boiling and skim
before using. This does not keep long,
so it is useless to make a large quan-
tity at a time.

The Cavalry of the Romans.

Devoted as the Romans were to war,
the cavalry was an important part of
the army. A great deal of adverse
criticism has been passed upon their
horsemanship and skill in managing
the cavalry. The Prussian hussar of-
ficer, Warnering, pronounces Caesar an
indifferent cavalry general and rid-
dles his arrangements where cavalry
are concerned. Caesar, however, con-
quered all the same. His famous
horse, credited with having a human
fore foot, was equal to the star eyed
goddess herself for victory.

perate battle was fought, returns to

The readers of this paper will be pleased to learn
that there is at least one dreaded disease that sci-
ence has been able to cure in all its stages, and
that is Catarrh. Hall's Catarrh Cure is the only
positive cure known to the medical fraternity.
Catarrh being a constitutional disease, requires a
constitutional treatment. Hall's Catarrh Cure is
taken internally, acting directly upon the blood
and mucous surfaces of the system, thereby de-
stroying the foundation of the disease and giving
the patient strength by building up the constitu-
tion and assisting nature in doing its work. The
proprietors have so much faith in its curative
powers, that they offer One Hundred Dollars for
any case that it fails to cure. Send for full tes-

We do not believe that any
cough cure can be better than
our Syrup of White Pine Com-

what must be done to thor-
oughly cure a cough. It over-
comes congestion and inflam-
mation—it soothes and heals
the delicate tissues of the air
passages—it promotes expec-
toration—loosens the cough
and finally cures it to stay
cured. Relief is almost im-
mediate. It is pleasant to take
and economical to use. When
